

*Living  
the full Life*

*Life Outdoor Living proudly presents its new collection of outdoor garden furniture for season 2012. Recycled teak, natural look wicker, aluminium and nature stone are just a few of the materials that are used to create our new outdoor collection. With series such as Versailles and Calais we combine the elegance and design of typical classic indoor tables with high quality recycled teak to suit outdoor use.*

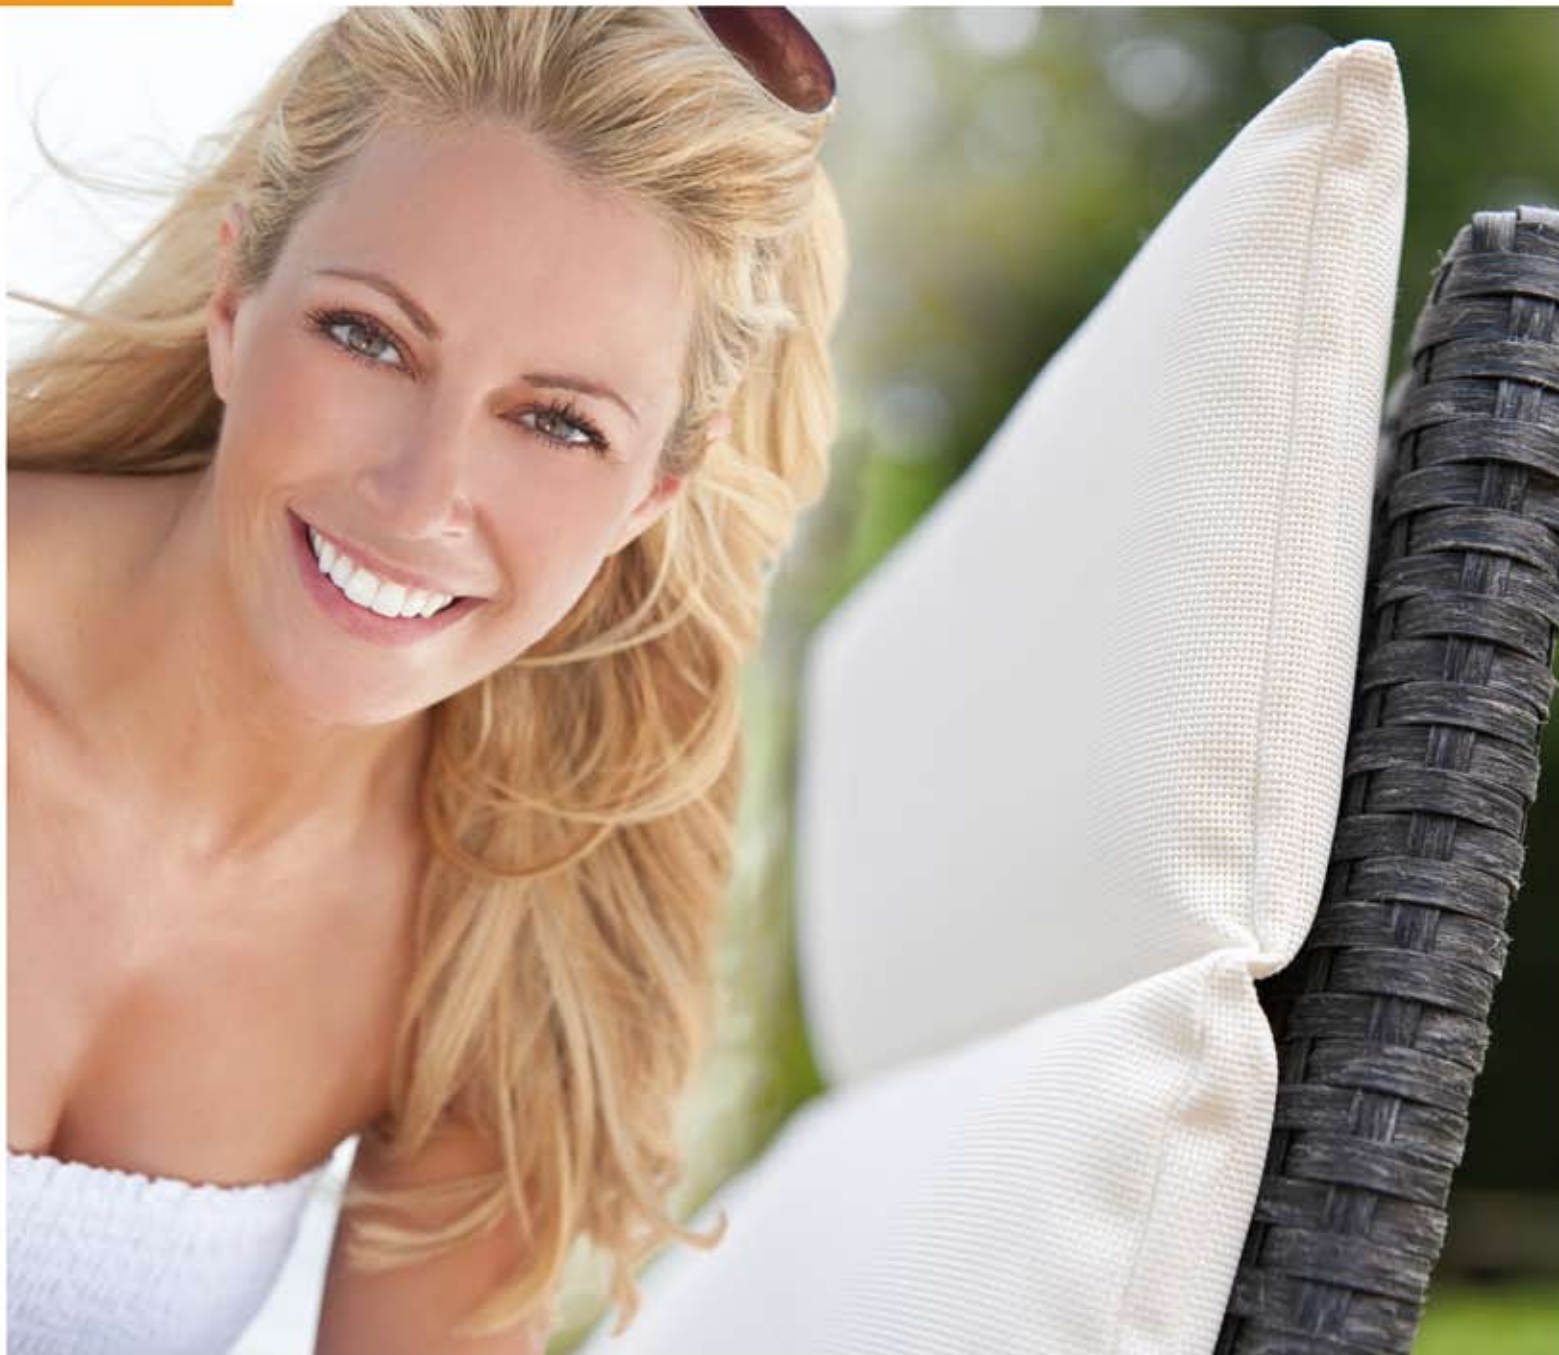

*But Old teak can also be fit in a modern design setting. The harmony of low maintenance wicker and polywood can be discovered in our Cuba and Moray series. Throughout the collection you can find a big variety of gaspring adjustable chairs. Other materials such as our all weather cushions introduce stressless use of your outdoor furniture. Also check out our collection lounges and their numerous possible setups. Enjoy!*

# *Design & Quality*

*We offer you a magnificent collection of tables which can be combined with a great range of other types of furniture. Life works with its own models and designs. The entire collection is produced under our own supervision and is tested on durability, quality and functionality with care. People and their social environment always form the basis of the designs, with the experience of nature playing a major part. The collection is aimed at comfort, functionality and user-friendliness. In every season the outdoor furniture can serve as an addition to your home interior and form a whole with the garden, the terrace and the sun lounge.*

*Life supplies the best leisure furniture, manufactured from high-quality materials and assembled with the greatest care. All our products are 100% weatherproof.*

Our timeless collection of special design tables is endless thanks to the wide variety of combinations between the different tablebases and tabletops. A new addition to our existing range of tabletops are the Baltic brown granite and mystic brown hardstone both with anciento finish. Also our hardwood tables is enlarged in order to make a perfect match with our range of light brown 5mm wicker chairs.

*Season 2012*

*Our design team has rediscovered teak as a basic material for our collection 2012. This, not only for tables but also for chairs and lounges. The recycled teak used in our collection is 100% genuine recycled teak. Old floorboards, doors and building structures get a second life as garden furniture. In addition, our collection of all weather cushions combines excellent seating comfort with easy maintenance and convenience.*
